Professional Summary

Innovative **Full-Stack & Web3 Software Developer** with hands-on experience building scalable applications, smart contracts, and cryptobased platforms. Proven track record working as part of a blockchain team that launched a live meme-coin token and supporting Web3 product deployment. Passionate about secure, efficient systems, userfocused UI/UX, and decentralized technologies.

Technical Skills

Frontend: React.js, Next.js, HTML5, CSS3, TailwindCSS, TypeScript, JavaScript
Backend: Node.js, Express.js, REST APIs, MongoDB, PostgreSQL
Web3 / Blockchain: Solidity, Web3.js / Ethers.js, Smart Contracts, Token Launch & Deployment, Wallet Integration, Hardhat
Tools & DevOps: Git/GitHub, Docker, CI/CD, Linux, Firebase, Vercel
Other Skills: Cyber security, agile teamwork, debugging, security-first coding, product testing

Professional Experience

WebApp Developer Token Launch Team Remote | 2024

- Contributed to the deployment and launch of a blockchain memecoin token on the Ethereum compatible network
- Wrote and audited Solidity smart contracts for token minting, distribution & liquidity lock
- Integrated Web3 wallet functionality & token interactions on frontend
- Participated in team sprint planning, testing, and release strategy
- Assisted in blockchain marketing tasks, community engagement & tech support

Full-Stack Developer Freelance Projects 2021 –

Present

- Built full-stack web apps with modern UI & secure REST API backends
- Designed custom front-end interfaces for individuals and small businesses
- Implemented authentication, payment pages & admin dashboards
- Optimized website performance & deployed apps to production

Blockchain-Developer Dyces.fun 2025 – present

- Lead a team of developers to build Blue VS Green, a competitive sol staking platform
- Wrote and Deployed 2 Smart contracts for each individual section of the site
- Constant audit for security and trust
- Built a trustless system and achieved total on chain recording of transactions, tasks and activities

Strengths

- Problem-solving mindset
- Deep interest in decentralized technology & security
- Strong collaboration & communication skills
- Quick learning adaptability to fast-changing tech stacks
- Ability to handle full product cycles from planning to deployment

Education

Self-Taught Software Development & Blockchain Engineering
Continuous learning through courses, projects, docs, bootcamps &
hands-on dev experience

Personal Projects

Web-App (Web3 Blueprint)

- A guide for beginners coming into web3 for the first time,

Full-Stack Apps (React Native + Node.js) Agrolink

- A revolution of Africa's farming industry with an all new interactive, social, youth adapting app that includes a social section, marketplace (where we bring the market to the farmers), Agrogigs, And so much more.
